

## **INSTRUMENTS TRAINER**

A complete aircraft operational instrument panel with the following fully operational systems:

- Standby Magnetic Compass
- Compass System Complete with R.M.I.
- Electrical Turn and Slip
- Remote Vertical Gyro and Attitude Director Indicator
- Airspeed Indicator
- Vertical Speed Indicator
- Altimeter
- Engine R.P.M.
- Manifold Pressure Gauge
- Oil Temperature
- Oil Pressure

Also included are pitot-static tester and pitot & static port adapters.

The trainer is mounted on a moveable stand which can be tilted to demonstrate gyro indication. The trainer comes complete with all training and service manuals. The trainer requires only 110/220 VAC power for its operation.

We can manufacture customized instruments trainer using instruments and configuration specified by the customers. Please contact Avitek for more information.
